Summary

Complex problem-solver who's gifted at finding reliable solutions for software issues. Experience in developing, designing, and debugging software applications and offering skills in UX/UI design, MERN stack and front-end frameworks. Seeking to apply my passion for front-end development to create unique, customer-facing platforms in the technology industry.

Projects

ProPairs

March 2023

- Optimized web app performance by utilizing jQuery and AJAX technologies, resulting in page load time reduction by 20%. Crafted optimized code with consideration of W3C standards and accessibility guidelines, resulting in high quality front-end code.
- Partnered with three other developers to build a professional compatibility website in which employees are able to view their work compatibility with one another.
- Designed a stylish yet sleek user interface while developing the user experience to have a simplistic and responsive feel using MaterialUI in React.

BudgetBuddy

February 2023

- Collaborated with three other developers in an AGILE framework to build a functioning financial budgeting tool.
- Built a familiarity with numerous industry-standard technologies including Figma, Jira, Gitbash, and Slack.
- Harnessed ability to build stacks using the L.I.F.O method and construct queries using the F.I.F.O method.

WhichWord

January 2023

- Assembled a Wordle clone using pure Javascript, HTML, and CSS.
- Operated in a team setting using effective communication in all stages of the software development lifecycle.
- Demonstrated a deep understanding of the user experience by successfully creating a simple and intuitive user interface.

Experience

Design Intern - Augustana EDGE Center, Rock Island, IL

March 2018 - May 2019

- Created product, website, and infographic illustrations to enhance the company brand and promote a cohesive marketing strategy.
- Configured graphic design elements to optimize functionality across desktop and mobile devices using PWA's and media queries.
- Demonstrated ability to build and reimagine a coherent brand image using a creative vision of the company's mission statement.

President of Augustana Esports - Augustana Esports, Rock Island, IL

May 2019 - May 2021

- Implemented plans for expansion and growth within the Esports community at Augustana College, resulting in a 150% increase in engagement.
- Facilitated communication between the administration and student-body to build consensus.
- Led student operational team in the development, rollout, and management of a \$95,000 Esports introduction plan.

Education

Bachelor of Arts at Augustana College in Rock Island, IL

May 2021

Major in Business Marketing with a minor in Economics at Augustana College in Rock Island, IL

Full-Stack Web Development at The University of Texas at Austin

March 2023

Built full-stack applications using a variety of technologies such as Javascript, Node, and SQL. Towards the end of this bootcamp, I discovered a passion for front-end development and subsequently now specialize in front-end Javascript, HTML, CSS, and Bootstrap.

Skills

HTML • CSS • JavaScript • Bootstrap • MaterialUI • SQL • Git • React • jQuery • Blender • Procreate • Digital Illustration • Bootstrap
